Dear:

- Secretary-General of the United Nations, International Courts,
- Executives: Presidents and Prime Ministers of countries around the world,
- Legislatures: Legislative Presidents, Members of Parliaments around the world,
- Judicial Authorities: Bar Associations, National Courts around the world,
- Religions: Religious Organisations & Indigenous Peoples of the world
- Non-Governmental Organisations (NGOs): Communication, Health, Human Rights, Justice, Transparency organisations in the world,
- Victims: Direct and indirect victims of COVID-19 across the globe.

According to information published by the World Health Organisation since early December 2019, "Wuhan Virus Deadly Epidemic" violently broke out in the City of Wuhan (China). Since then it has spread from Wuhan and turned into a global pandemic. COVID-19 Virus has not only killed hundreds of thousands of people worldwide but also threatened the lives and livelihood of many people on the planet.

Due to Beijing's concealment, keeping secret of information, fraudulent claims of COVID-19 virus deaths in China, erasing traces of the virus, citing many reasons to prevent international investigations and the slow and delayed response of the World Health Organisation (WHO), the global humanity has suffered the terrible consequences of the Wuhan Virus that has already claimed hundreds of thousands of lives and is still threatening millions of other lives in the world. To date, through what has been happening, countries, direct and indirect victims throughout the world are suspicious, wanting to know the real causes and demanding to have a thorough and open investigation.

According to Worldometers statistics: <https://www.worldometers.info/coronavirus/>

Up to today there has been over 5,991,331 people in 213 countries around the world infected with the COVID-19 virus, of which 362,921 died, and more seriously, these numbers are increasing by the minute and by the hour.

COVID-19 virus pandemic is threatening to destroy all humanity, if we do not find a way to prevent and cure.

I. We, the direct and global victims of the COVID-19 virus pandemic, would like to present our damages as follows:

1. Losing lives of relatives, an endless and painful loss.
2. Public, private, large and small schools were closed causing huge damage the education system (to teachers, children and students, who lost their jobs, missing their study and exams.)
3. Public, private, large and small companies, Economic zones, tourist areas, airports were closed, causing huge damage to the economies of nations around the world.

II. We respectfully request that the world organisations, agencies and governments quickly clarify the important issues relating to the survival of all mankind as follows:

1. Open investigation:

Request International Public Authorities and Media Agencies urgently send investigation teams to the People's Republic of China to gather specific evidence in order to clarify any questionable details surrounding this COVID-19 Wuhan pandemic.

2. Determining the Cause:

Request International Public Authorities and Media Agencies, after investigating, must publicly announce and point out the cause of the outbreak of the Wuhan COVID-19 virus.

3. Prosecution of Responsibility:

- a. Pursuit the perpetrators and accomplices, who have violated international responsibility, concealed information, concealed the epidemics for months, causing a global pandemic as a result.
- b. Pursuit the perpetrators and accomplices, who intentionally delayed investigation, deleted traces of natural or man-made (BWC: Biological Weapons Convention) causes.
- c. Pursuit the perpetrators and accomplices on charges of genocide and anti-humanity crimes based on the violations of "International Health Regulations" - articles 6 and 7 - International Health Regulations-IHR.

III. **Demand Governments To Claims for Compensation, Punishment for all damages to victims:**

1. Compensate the living or the dead, direct or indirect victims for the damage caused by COVID-19 virus globally.
2. Compensate the economic damages of countries around the world.
3. The Perpetrators and accomplices must be punished for crimes of genocide and crimes against humanity.
4. And finally: The UN must regularly control the situation to avoid future recurrences.

We urge everyone:

After signing, to pass this petition on to organisations, community and everyone via their Phone, Messengers, Facebook, Youtube, Twitter, Livestream, Website, Télégram, Internet, Viber, WhatsApp, Email, Skype, Zoom, Paltalk, Zalo etc....

Sincerely Thanks Everyone.

COVID-19 WUHAN VICTIMS WORLDWIDE
